[Answers Key Payroll Accounting Project Chapter 7.30](#)

The screenshot shows the IPScan32 application window. The interface includes a menu bar (Fichier, Options), a toolbar with buttons for 'Scanner une plage d'adresses', 'Rechercher un nom NetBIOS', 'Tracer chemin', 'Rechercher un nom DNS', and 'Exporter le résultat...'. Below the toolbar, there are input fields for 'Plage de' (192, 20, 211, 254) and a 'Lancer l'analyse' button. A checkbox 'Masquer les adresses sans réponse' is also present. The main area contains a table with the following columns: Adresse IP, Nom NetBIOS, Nom au DNS, Utilisateur, Domaine, Adresse MAC, Serveur, and N°. The table lists scan results for various IP addresses in the 192.20.211.0/24 range, showing details like NetBIOS names, DNS names, users, domains, MAC addresses, and server numbers. At the bottom, there is a 'Temps ping' field set to 250 milliseconds and a checkbox 'Vider la liste avant chaque recherche'.
